STRASBOURG

Rich of 2000 years of history and exchanges, Strasbourg is a symbolic city localized in the heart of Europe. A humanist city that became an European capital where numerous E.U. and European institutions are now based. Symbol of a restored peace on a continent shaken by wars and pioneer of European integration, Strasbourg is now the home of the European Parliament, the Council of Europe, the European court of Human rights, the general secretary of the Assembly of European regions, the European youth centre and the Ombudsman. The city is a place where democracy and local governance can flourish and innovate.

Moreover, in France, Strasbourg is one of the city with **the most innovative and developed cultural and sport policy**, as evidenced by its experiment on exercise prescription.
